what is xml xml or extensible markup language is a specification for storing information it is also a specification for describing the structure of that information and while xml is a markup language just like html xml has no tags of its own it allows the person writing the xml to create whatever tags they need the only condition is that these newly created tags adhere to the rules of the xml specification in the seven years since the first edition of xml visual quickstart guide was published xml has taken its place next to html as a foundational language on the internet xml has become a very popular method for storing data and the most popular method for transmitting data between all sorts of systems and applications the reason being where html was designed to display information xml was designed to manage it xml visual quickstart guide 2nd edition is divided into seven parts each part contains one or more chapters with step by step instructions that explain how to perform xml

related tasks wherever possible examples of the concepts being discussed are displayed and the parts of the examples on which to focus are highlighted the order of the book is intentionally designed to be an introduction to the fundamentals of xml followed by discussions of related xml technologies

the aim of this edited collection of essays is to examine the relationship between private law and power both the public power of the state and the private power of institutions and individuals it describes and critically assesses the way that private law doctrines institutions processes and rules express moderate facilitate and control relationships of power the various chapters of this work examine the dynamics of the relationship between private law and power from a number of different perspectives historical theoretical doctrinal and comparative they have been commissioned from leading experts in the field of private law from several different commonwealth jurisdictions australia the uk canada and new zealand each with expertise in the particular sphere of their contribution they aim to illuminate the past and assist in resolving some contemporary difficult legal issues relating to the shape scope and content of private law and its difficult relationship with power

what does israel s definition as a jewish and democratic state mean how does it affect constitutional law how does it play out in the daily life of the people living in israel this book provides a unique and detailed examination of the consequences of the jewish and democratic definition it explores how the definition affects the internal ordering of the state the operation of the law and the ways it is used to justify protect and regenerate certain features of israeli constitutional law it also considers the relationship between law and settler colonialism and how this relationship manifests itself in the constitutional order the dynamics of exclusionary constitutionalism offers a novel perspective on the jewish and democratic definition rooted in constitutional theory and informed by a socio legal approach relying on a wide range of court cases and statutes as well as secondary sources the book shows how the definition is deeply embedded in the constitutional structure and operates as a matter of law in a manner that concentrates political power in the hands of the jewish citizens and excludes the palestinian arab citizens in israel from the political process mazen masri s study is a timely intervention in an increasingly important question and is essential reading for those who want to understand israel s character its relationship with the constitutional order and its impact on society

this book sets out a plea for lawyers to understand the purpose and potential of international law on its own terms

this book represents a unique contribution to comparative legal studies by presenting the results of an empirical research project on the use of foreign precedents in constitutional interpretation in 31 jurisdictions worldwide it expands and updates the outcomes presented in the previous successful book the use of foreign precedents by constitutional judges edited by tania groppi and marie claire ponthoreau and published in 2013 as volume 1 of the series hart studies in comparative public law this new research covering countries from all the continents with special attention to some of the emerging jurisdictions of the global south confirms that the practice of making explicit use of foreign precedents is still limited both quantitatively and qualitatively judicial dialogue only exists in common law jurisdictions and even there judicial bricolage is much more common than judicial comparativism since the previous edition this practice has gone hand in hand with new developments in constitutional law such as the democratic erosion and backsliding the emergence of populist movements the increasing role of regional human rights courts which in many cases overshadowed foreign sources and the end of a global vision of constitutionalism applying a quantitative and a qualitative analysis with the support of tables and data the book gives a more complete picture of the practice of citing foreign precedents in this new and challenging era resulting in

essential reading for comparative and constitutional legal scholars
